Forecast for Sunday 14 Nov 2021

Weather: Some mist and fog possible in prone areas this morning, otherwise a lot of bright or sunny spells toward midday. Cloud building from the east for a time this afternoon, before clearing again into the evening.

Chance of cloud free mountain/hill tops above 600m: Generally 90%, some scattered lower cloud around the hill tops at first. Becoming 70% for a time during the afternoon.

Visibility: Moderate at first but becoming good with good views around the Brecon Beacons. Some patches of lower cloud above 500m first thing in the morning but these should clear easily. Perhaps becoming hazy in the afternoon as an area of cloud with bases down to 600m affects mostly eastern parts.

Meteorologist's View

Dry but rather chilly during the afternoon as the cloud increases for a time.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Sun 14 Nov 2021	0mm	5.8mm	9.8mm

Forecast for Monday 15 Nov 2021

Weather: Cloud building a little overnight but remaining mainly dry. A chance of mist or fog in any clearer spells. Drizzle and low cloud will spread from the west over the area in the afternoon. Some spells of rain are possible later too.

Maximum wind: Variable direction 5mph.

Chance of cloud free mountain/hill tops above 600m: 70% falling to 40%, low cloud will tend to form over hill tops associated with the slow moving rain band. Perhaps clearer in the east at times.

Visibility: Good at first with just scattered cloud around 600m but cloud bases will fall and cloud will thicken to become broken or overcast above 400m, perhaps more scattered above 500m in the east. Visibility reduced to a few kilometres in rain and perhaps less than a kilometre in areas of drizzle.

Temperature: **Valleys:** Plus 7 rising to 11 Celsius.
At 600m: Plus 6 Celsius.
Freezing level: Above the summits.
